MatrixCare strongly recommends each agency consult with counsel of its own choosing for medical and legal advice on next steps in this matter that best suits it.

June 2020

OSHA – COVID-19 Health Emergency Temporary Standard (ETS)

On June 10, 2021, the Occupational Safety and Health Administration (OSHA) issued an emergency temporary standard (ETS) to set forth guidelines to protect healthcare workers. OSHA issued this ETS in response to President Biden's Executive Order issued on January 21, 2021, directing OSHA to take action to reduce the risk that workers may contract COVID-19 in the workplace.

The ETS applies only to settings where any employee provides healthcare services or healthcare support services and targets healthcare settings where COVID-19 patients are reasonably expected to be present.

Health screening and surveillance of patients and employees will be an important focus of the COVID-19 plan, and employers are required to follow [CDC guidance](#), inclusive of standard and transmission-based precautions.

Learn how MatrixCare Private Duty can help you meet the ETS recommendations for **Employee Daily Screenings** and **Client Symptom and Temperature Checks**.

ETS - Employee Daily Screenings

Employees are required to be screened before each workday and each shift, which can include self-monitoring or in-person screening for COVID-19 symptoms, potential exposures and temperature checks.

Use these MatrixCare features to help you meet this requirement:

- *Caregiver SMS Wellness & Work Reminders*
- *Caregiver Certification of Wellness at Check In*
- *Caregiver Check In Certifications Report*

**These features are available for all 3 Mobile Personas: Caregivers, Supervisors, On Call Schedulers*

ETS - Client Symptom and Temperature Checks

In environments where direct patient care is provided, patient screening and management procedures need to be implemented, also screening for symptoms, temperature checks and potential exposures or known/confirmed COVID-19 infections.

Use these MatrixCare features to help you meet this requirement:

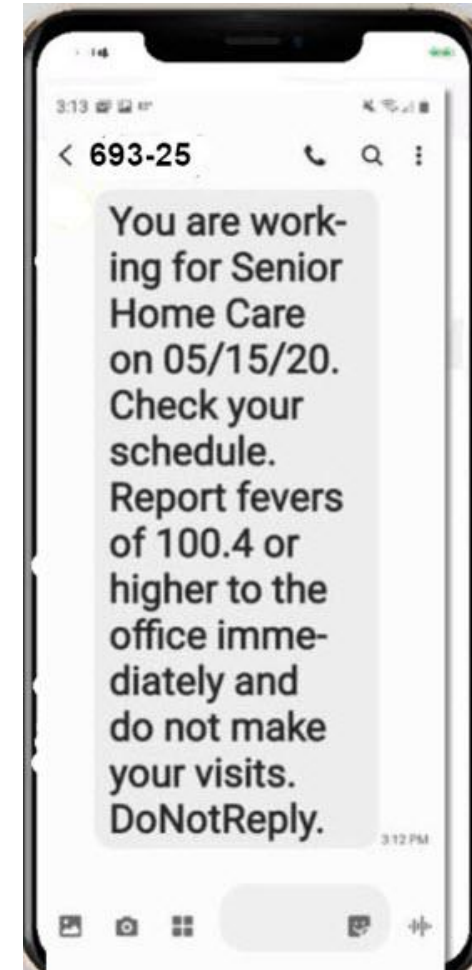

- *Service Plan Tasks for Temperature checks*
- *Medical History/Physical/Functional Assessment for Temperature and Wellness status*
- *Plan of Care Diagnosis for COVID ICD10 assignment*

Features for Employee Daily Screenings

- Caregiver Wellness & Work Reminders
- Caregiver Certification of Wellness at Check In
- Caregiver Check In Certifications Report

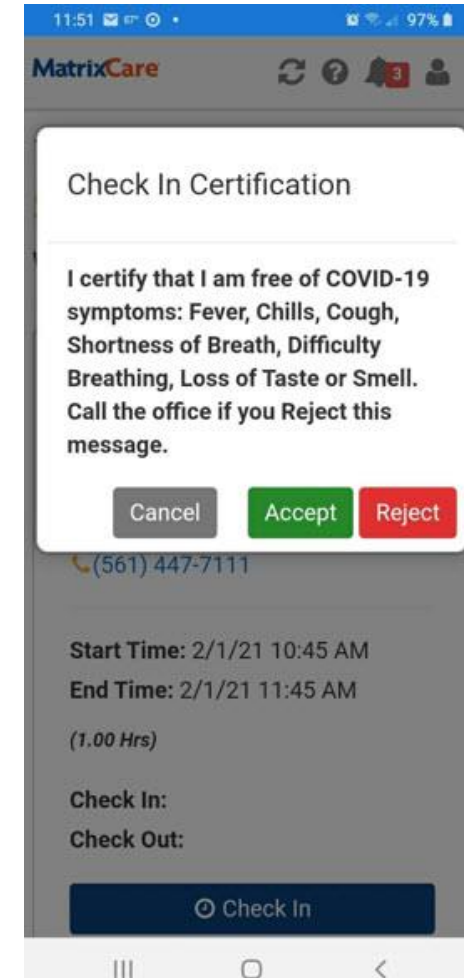

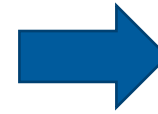

Caregiver Wellness & Work Reminders

- Customizable SMS Text Messages
 - **Work Reminders:** Remind caregivers they are scheduled to work for you via an automated text message process. Reduce the volume of manual calls placed by your schedulers.
 - **Wellness Reminders:** Customize the message to support your COVID-19 policies and procedures during the pandemic. Change the message after the pandemic as you see fit.
- Sent nightly
- One message for each caregiver who is scheduled to work the next day

Caregiver Certification of Wellness at Check In

- Caregiver will see a 'Check In Certification' step when the office is configured for the feature
 - Office custom text
 - 3 possible responses
 - Cancel : taken back to the schedule
 - Accept: proceed with check in
 - Reject: taken back to the schedule
offline app will attempt an auto sync

Check In

- Office Schedules > Tools > EVV Reports
- This is the agency's history of their caregiver's certification responses
 - Includes the caregiver's response and the message she responded to
- Can be used in the event of a compliance audit
- Can be used in the event contact tracing needs to be performed

Features for Client Symptom & Temperature Checks

- Service Plan Tasks for Temperature checks
- Medical History/Physical/Functional Assessment for Temperature and Wellness status
- Plan of Care Diagnosis for COVID ICD10 assignment

Client Service Plans – Temperature

Add the 'Temperature' Task to Client's Service Plans. You can assign a frequency so that caregivers will need to document if the client's temperature was taken or no taken during the visit.

Client Diagnosis - ICD10 COVID Codes

The CDC has recommended the implementation of two new ICD-10-CM codes for COVID-19 and Vaping-related disorder, and CMS has approved an off-cycle code set update. These new codes are **U07.1, COVID-19**, and U07.0 Vaping-related disorder with an effective start date of **April 1, 2020**. These codes are available in MatrixCare to select when adding diagnosis to your client's plan of care record as well as assessments that contain a diagnosis search.

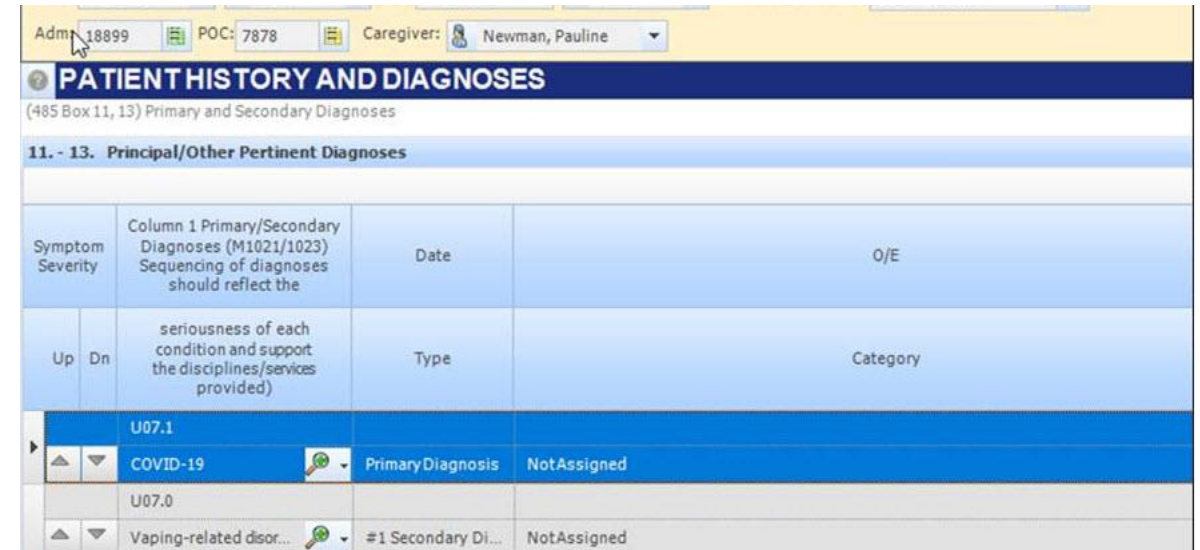

Plan of Care Diagnosis

The screenshot shows the 'Diagnosis' tab in the MatrixCare interface. At the top, there are tabs for Intake-1, Intake-2, Program, Diagnosis (selected), Orders, Goals, Assessments, Service Plan, Service Plan History, Med Profile, and Schedules. Below the tabs, patient information is displayed: POC ID: 7879, Client: Metcalf, Laura, Adm ID: 18772, SOC: 04/01/2020, MR#: 412765098. A section titled '11. - 13. Principal/Other Pertinent Diagnoses' contains a table with ICD10 Diagnosis Codes. The table has columns for Up, Dn, Code, Description, Category, Date, O/E, and Type. Two rows are visible: U07.0 Vaping-related disorder (Primary Diagnosis) and U07.1 COVID-19 (#1 Secondary Diagnosis).

Up	Dn	Code	Description	Category	Date	O/E	Type
▲	▼	U07.0	Vaping-related disorder	NotAssigned	04/01/2020		Primary Diagnosis
▶	▲	U07.1	COVID-19	NotAssigned	04/01/2020		#1 Secondary Diagnosis

Assessment Diagnosis

The screenshot shows the 'PATIENT HISTORY AND DIAGNOSES' section in the MatrixCare interface. At the top, there are tabs for Adm: 18899, POC: 7878, and Caregiver: Newman, Pauline. Below the tabs, the section is titled '11. - 13. Principal/Other Pertinent Diagnoses'. A table displays assessment diagnoses with columns for Symptom Severity, Column 1 Primary/Secondary Diagnoses (M1021/1023) Sequencing of diagnoses should reflect the, Date, O/E, and Category. The table has two rows: U07.1 COVID-19 (Primary Diagnosis) and U07.0 Vaping-related disorder (#1 Secondary Diagnosis).

Symptom Severity	Column 1 Primary/Secondary Diagnoses (M1021/1023) Sequencing of diagnoses should reflect the	Date	O/E	Category
Up	Dn			
▲	▼	U07.1	Primary Diagnosis	NotAssigned
▶	▲	U07.0	#1 Secondary Di...	NotAssigned
